

**INTERMODAL ASSOCIATION OF NORTH AMERICA  
MAINTENANCE & REPAIR COMMITTEE**

**CHARTER – ROADABILITY COMPLIANCE TASK FORCE**

**Approved May 2, 2007**

The primary purpose of the Roadability Compliance Task Force is to determine the recommended practices for implementation and compliance the FMCSA rulemaking of Intermodal Equipment Roadability.

Among the items to consider are:

1. Description/Definition of Systematic/Preventive Maintenance
2. Implementation of a systematic/preventive maintenance program.
3. Quantity and depth of required inspections
4. Driver inspections
5. Procedure to install potential equipment identification numbers
6. Discuss and agree on other known items as required

The goal is to develop sound recommended practices that can be referenced by all Intermodal Equipment Providers with the aim to comply with FMCSA requirements as productively and efficiently as possible.
